

Thomas Coffin AGE: 12 class: Foeniu

Dear Reil sun Foundation,
 thank you for providing the money for
 over fealdtrip and for the DVD about
 Redcing, reusing and recycling.

From watching the DVD
 about Reducing, reusing and recycling I
 learned that we should reduce over
 use on plastic because it gets into
 the ocean. It kills many fish, turtles
 and birds because they end up eating the
 plastic and starving to death because they
 are full of plastic and cant eat no more.

Another thing I learned that
 we should get things that we can
 reuse like metal bottles and wool
 bags. we should use reuseble thing
 so that it doesnt end up in the
 ocean.

Also I learned that
 we should recycol so that they
 can despose of it the right way.
 Also that it douse not get into
 the ocen.

30
 Lastly the new
 thing that I learned is that I
 did not know polution was that
 bad. Now that the new thing I
 learned about polution and how to
 stop it. I will try my best to
 help stop it and spred the word.
