

Thomas Coffin AGE: 12 class: Foeniu

Dear Reil sun Foundation,  
thank you for providing the money for  
over fealdtrip and for the DVD about  
Redcing, reusing and recyeling.

From watching the DVD  
about Reducing, reusing and recyeling I  
learned that we should reduce over  
use on plastic because it gets into  
the ocean. It kills many fish, turtles  
and birds because they end up eating the  
plastic and starving to death because they  
are full of plastic and cant eat no more.

Another thing I learned that  
we should get things that we can  
reuse like metal bottles and wool  
bags. we should use reuseble thing  
so that it doesnt end up in the  
ocean.

Also I learned that  
we should recycel so that they  
can despose of it the right way.  
Also that it douse not get into  
the ocen.

30  
Lastly the new  
thing that I learned is that I  
did not know polution was that  
bad. Now that the new thing I  
learned about polution and how to  
stop it. I will try my best to  
help stop it and spred the word.
